# KENTUCKY RELAY

## Important Information Regarding Kentucky Relay

### What is Kentucky Relay?

Kentucky Relay is a public service that guarantees all citizens access to prompt, professional and precise communication through a telephone. Consumers of these specialized services, specifically individuals who are deaf, DeafBlind, hard of hearing or have difficulty speaking, can communicate on the telephone via TTY, Voice Carry Over (VCO), Hearing Carry Over (HCO), Speech-to-Speech (STS), Spanish-to-Spanish and Captioned Telephone. This helps ensure the ability to connect with family, friends or businesses with ease.

### How does the Kentucky Relay work?

Simply dial 711 to connect with Kentucky Relay. A qualified Communication Assistant (CA) will ask for the area code and the number of the person you wish to call and begin the relay call. Generally, the CA will voice the typed message from the text telephone (TTY) user to you. The CA then relays your voiced message response by typing it to the TTY user.

### Specialized Services:

Kentucky Relay offers specialized services for individuals who have difficulty speaking and for Spanish-speaking residents. Specially trained CAs are on hand to assist in these types of calls by dialing the number provided. Since Kentucky Relay offers a variety of services please refer to the website listed, or contact Kentucky Relay Customer Care for more detailed instruction on how a particular call is processed.

### Captioned Telephone:

Captioned Telephone is ideal and available for individuals with hearing loss that can speak for themselves. A captioned telephone works like any other telephone with one essential difference: it allows users to listen to their phone conversations while reading captions of what's being said to them.

### Access to Services:

711 provides toll-free relay calling. If you are experiencing trouble dialing 711 while trying to reach Kentucky Relay, please contact Kentucky Relay Customer Care.

All TRS and English Captioned Telephone services are available 24 hours a day, seven days a week. Spanish Captioned Telephone is available daily from 8:00 a.m. to 12:00 a.m. EST or 7:00 a.m. to 11:00 p.m. CST. Consumers may place relay calls to English-speaking and Spanish-speaking people within Kentucky, across the United States, and even internationally. By law, each conversation is handled with strict confidentiality.

### Special points of interest:

#### Equipment Distribution Program

The Kentucky Commission on the Deaf and Hard of Hearing's (KCDHH) Telecommunications Access Program (TAP) provides residents of Kentucky who are deaf, hard of hearing, have difficulty speaking or have both a hearing and vision loss, with landline or wireless equipment to make communication on the telephone more accessible. For more information, visit [www.kcdhh.ky.gov/oea/howapply.html](http://www.kcdhh.ky.gov/oea/howapply.html) or call 800-372-2907 (Voice) or 502-416-0607 (VP).

#### Emergency Calls

**Please note that 711 can only be used to reach Kentucky Relay. In an EMERGENCY you should continue to use 911.** For emergencies, call 911 or your local emergency service TTY number directly and not relay. The Americans with Disabilities Act (ADA) requires that 911 centers have a TTY and be prepared to handle emergency calls placed in this manner. Kentucky Relay will make every effort to assist you in an emergency. However, it is important to understand that relay centers are **not** 911 centers and do not assume responsibility for emergency calls.

# HOW TO STOP UNWANTED TELEMARKETING CALLS

## WHAT IS THE KENTUCKY NO CALL LIST?

It is a list of residential and wireless telephone numbers of Kentuckians who want to reduce the number of unwanted telemarketing calls they receive.

## IS THERE A NATIONAL DO-NOT-CALL REGISTRY?

Yes. The national registry has always been maintained by the Federal Trade Commission (FTC). In 2007, Kentucky's General Assembly mandated that the numbers previously placed on Kentucky's No Call List would be transferred to and maintained by the FTC.

If your number was placed on the Kentucky No Call List prior to June 2007, it has now been automatically transferred and placed on the National Do Not Call Registry. After June 2007, any Kentuckian who needs to do a new registration of their telephone number can simply contact the FTC. Any telemarketer who calls a registrant whose telephone number is on the list can be prosecuted by the Kentucky Attorney General's Office and fined up to \$5000 per violation, unless the telemarketer falls within one of the exceptions in the law.

## WILL I GET ANY TELEMARKETING CALLS IF I'M ON THE NO CALL LIST?

The law allows certain telemarketers to continue to call consumers on the No Call List. The exceptions include calls from:

- Telemarketers who have a prior or existing business relationship with you.
- Telemarketers who have received an express request from you to call.
- Telemarketers with whom you have an existing debt or contract.
- Telemarketers soliciting only donations for charities.

## HOW DO I SIGN UP FOR THE NO CALL LIST?

You may contact the FTC through its website, [www.donotcall.gov](http://www.donotcall.gov), or by calling 1-888-382-1222 (TTY 1-866-290-4236).

## DO I HAVE TO SIGN UP ON THE NO CALL LIST MORE THAN ONCE?

No. Unless your telephone number changes, you will remain on the list.

## WHAT IS DONE WITH THE INFORMATION I PROVIDE FOR THE LIST?

The information provided is kept confidential and used only to compile the list. The only information on the list is your home or wireless telephone number. Only your telephone number will be provided to telemarketers to prevent them from calling you. It is a crime for anyone to use your information for any reason other than preventing unwanted telemarketing calls.

## HOW LONG AFTER I SIGN UP DO TELEMARKETERS HAVE TO STOP CALLING ME?

Telemarketers have 31 days from the date that you register your number to stop calling you.

- If a Call Waiting tone is received during a call that is to be traced, tracing will occur on the Call Waiting call rather than the original number.*
- Results of Call Trace that are "not" requested by Court Order are only stored for 6 months.*

## CALL TRANSFER

Allows a subscriber to transfer an incoming call to another telephone number by hook flash, getting dial tone, dialing the number that call is to be transferred to and then hang up if desired. This feature requires subscriber to have three-way calling assigned to their line.

## CALL WAITING

When you're on the phone, you hear a special tone signal when another party is trying to call you. You can hold – or terminate – the first call, then answer the second. You can also switch back and forth from one call to the other. Each conversation is private. Our Cancel Call Waiting service is included with our Call Waiting feature. Read below for Cancel Call Waiting Instructions.

### TO ANSWER A CALL WAITING SIGNAL:

- Depress the switchhook firmly for about half a second. The first call is put on hold and you're connected with the second call.
- To resume your original conversation, depress the switchhook firmly. The second party will be placed on hold, while you're connected with the first call.
- You can switch back and forth from party to party each time you depress the switchhook.
- To disconnect both parties, hang up your receiver.

## CANCEL CALL WAITING

## CALLER ID PREMIUM

Foothills Caller ID Premium feature is all of our Caller ID features wrapped up in one robust bundle. Within this bundle, you'll get Caller ID, Caller ID Name and Number, Caller ID On Call Waiting, Caller ID Blocking, and we've thrown in Anonymous Call Rejection to boot!

## CALLER ID

Caller ID enables you to see the telephone number of the calling party before answering a call. You will also have a record of calls received while you were away. The caller's number is displayed on a special display typically located on the telephone.

## CALLER ID NAME AND NUMBER

Caller ID Name and Number displays the name and ten digit telephone number associated with an incoming call as well as the date and time on the telephone set after the first ringing cycle. The first fifteen characters of the caller's name will be displayed, beginning with the last name. Name/Number display allows the subscriber to answer the call with a personalized greeting because you know who's calling. With this service, the subscriber has more specific information upon which to base the decision to answer or not.

Our Anonymous Call Rejection service is included with our CNAM feature. Read about Anonymous Call Rejection on page 14.

CNAM requires a telephone capable of displaying an alphanumeric set of characters.

## CALLING ID ON CALL WAITING

Caller ID On Call Waiting provides the capability of delivering caller identity information (name and/or number) via Customer Premises Equipment (CPE) on an incoming call waiting call. The calling party hears audible ringing and the CIDCW subscriber hears call waiting alerting tones for this new incoming call.

Once the subscriber has received the calling identity information, the subscriber can decide whether to ignore the waiting call, interrupt the current call and hookflash to answer the waiting call, or end the current call in order to be connected to the new caller. With CIDCW, the subscriber is able to make an informed decision as to which of these options to take.

If the CIDCW subscriber already has a call in the waiting or held state, CIDCW treatment will not apply to any subsequent calls. Those calls will receive a busy signal and the CIDCW subscriber will not be alerted.

## CALLER ID BLOCKING

- (3) tell us why you believe it was an error.

You should contact Foothills Communications first, since we have an agreement to receive billing error notifications from customers. You may provide a notice to your Long Distance Company instead, and it may ask you to contact us directly, and provide to you our name, mailing address, and business telephone number, even if it also sends your billing error notice to us.

A customer who orally communicates an allegation of a billing error is presumed to have provided sufficient notice to initiate a billing review.

You have the right to withhold payment of any disputed amount pending completion of our billing review, and any action to collect any disputed amount will be suspended pending completion of the billing review.

If it is determined that no billing error occurred, your rights and obligations are as follows:

We will transmit to you an explanation setting forth the reasons why it has been determined that there was no error. If there was an error - even a partial error or an error different than what you asserted - your account will be adjusted appropriately. If you request, we will provide a written explanation and copies of any documentary evidence of the customer indebtedness.

This action will be taken within two billing cycles (two months) after your notice is received. If you send your notice to your Long Distance Company, instead of Foothills, there may be an additional time of up to fifteen days to complete the necessary responsive action.

Your Long Distance Company will notify the provider of the service of the disposition of the billing error investigation and the reasons for that disposition.

Foothills Communications will notify you in writing, normally with your billing statement, of the time when payment is due of that portion of the disputed amount that is determined not to be in error. Payment must be made in the normal course of billing or as otherwise provided, but not less than ten days after the request for payment

is made.

Once Foothills Communications and your Long Distance Company have complied with FTC rule § 308.7 (d) regarding a claim you make of a billing error, there is no further responsibility under that section if you continue to make substantially the same allegation.

You cannot be charged for a billing review.

The provider of the 900 service, your Long Distance Company, or Foothills Communications may take action to collect the sum outstanding that is determined not to be the result of a billing error if you continue to withhold payment of the disputed amount once the billing review is completed.

Failure to pay the amount determined not to have been the result of a billing error may be reported to a credit reporting agency or subject you to a collection action. If you continue to dispute any portion of your billing error claim, the fact your account is delinquent will be reported only if we also report that the amount that remains is in dispute, the amount, and tell you to whom we have made such a report. If the dispute is subsequently resolved, that fact will be reported to all who received the initial report that the account was delinquent.

If either we, as your billing entity, or your Long Distance Company, as a billing entity, fails to follow the billing and collection procedures prescribed in § 308.7 of the Federal Trade Commission rule implementing the Federal Telephone Disclosure and Dispute Resolution Act, we are obligated to forfeit any disputed amount, up to \$50 per transaction.

## DISCLOSURE UNDER FCC RULE § 64.1509 (b)

The FCC also requires disclosures to telephone subscribers, which are as follows:

Your local exchange and long distance service cannot be disconnected or interrupted as a result of your failure to pay charges for pay-per-call service, charges for interstate information services provided pursuant to a presubscription or comparable arrangement, or charges you have disputed for interstate tariffed collect information services.

You can obtain blocking of access to services offered on the 900 service access code where it is technically feasible, at no charge and on a one-time basis before January 1, 1994 or within 60 days after you subscribe to a new number and it becomes effective. Other requests for blocking, and requests for unblocking will be subject to a reasonable one time fee. Our tariffs include the terms and conditions that apply.

You have a right not to be billed for pay-per-call services not offered in compliance with Federal laws and regulations established under Titles II or III of the Telephone Disclosure and Dispute Resolution Act.

Your access to 900 services may be involuntarily blocked for failure to pay legitimate pay-per-call charges.

# HOW TO DIAL MOST INTERNATIONAL CALLS

## DIALING INSTRUCTIONS

International calling is more convenient today than ever before. Calls can now be dialed to many overseas countries by customers throughout the United States. The following instructions are for placing international calls.

1. The International Access Code — 011.
2. The Country Code — a two- or three-digit number.
3. The City Routing Code — a one- to five-digit number.
4. The local telephone number.
5. The “#” button — where telephone is equipped with Touch-Tone dialing.

### FOR EXAMPLE:

To place a call to Paris, France, to telephone number 123456, you would dial:

International Access Code		International Access Code		International Access Code

	+	123456	+	#
		Local Number		Button if Touch-Tone Dialing*

Signals (ringing, number busy, etc.) in other countries often differ from those in the United States.

## OPERATOR-ASSISTED CALLS

To dial person-to-person, collect,\* calling card and billed to a third number international calls, follow the instructions given above. After the call is dialed, the Operator will come on the line to ask for information such as the name of the person you are calling or your calling card number.

After dialing any international call, allow at least 45 seconds for the ring to start.

For rates on calls to other international points, call the Operator.

## ADDITIONAL ASSISTANCE OR INFORMATION

Dial “0” (Operator) if you need assistance:

1. To obtain a telephone number you don’t know.
2. To obtain City Routing Codes not listed in this section.
3. For help in completing a call.

# TELEPHONE SAFETY

## TIPS

- Never give your name, address, or phone number to someone you do not know.
- Use your first initial and last name as information.
- Use an answering machine when not at home. Do not state in your message that you are not home. Say that you are unable to come to the phone at the moment.
- In case of emergency, know what number to dial (911) and what to say when calling.
- Don't release any personal information if called about surveys, contests, subscription drives, purchases or deliveries until the source of the call has been verified. Ask for their phone number and mention that you will return their call later. Verify if the phone number is legitimate.
- Never give any information to "wrong number" callers. Ask for the number they are trying to dial.
- Always give the impression you are not alone.
- If the caller asks for someone who is not available, say that they can't come to the phone at the moment. Ask for a name and number to return the call.
- If it becomes clear that a caller is harassing, hang up immediately. Report any continuing incidents to the police.
- In harassment situations, do not become emotionally involved. Don't try to discourage calls by yourself. Always disconnect the call and contact your phone company or authorities if needed.
- If all else fails, change your phone number and have it unlisted.

## TELEPHONE HARASSMENT

It is harassment when someone calls and uses obscene or threatening language, or even heavy breathing or silence to intimidate you. It is against the law to make obscene or threatening calls.

Just one unwelcome, obscene call can be considered harassment. Your telephone company, however, might require these calls to be frequent to take action. (If the phone call results in threatening bodily harm or life, action will be taken immediately by your phone company and the police).

Call "Traps" or Call Traces may be setup by your phone company to help determine the location of these harassing calls. Each local phone company differs in policies dealing with harassment cases, but they will all point you to someone that can help.

Everyone is encouraged to contact their local law enforcement with harassing callers that are persistent, especially the calls that threaten harm or lives.

# POISONING

## Signs & Symptoms

- drowsiness
- a confused mental state
- excessive drooling
- unusual odor
- sudden change in behavior
- vomiting
- pill fragments on the lips or clothes
- listlessness

## WHAT TO DO

*If you suspect that a child has taken a poison and he or she is alert, contact your local poison control center right away for advice: 1-800-222-1222.*

## Seek Emergency Medical Care or Call 911 If...

- The child has taken a poison and has a change in mental state. It's important to remember to bring in the specific container or bottle of the substance the child ingested. **Do not give a child ipecac.**

## Think Prevention!

Help prevent poisoning by:

- discarding used button cell batteries (like those used in watches) safely and storing any unused ones far from children's reach
- keeping alcohol and cleaning products far out of children's reach or locked in cabinets
- keeping medications in locked cabinets
- never telling a child medicine tastes like candy
- never putting cleaning products in containers that were once used for drink or food
- never putting insect poison on the floor
